## INVITATION FOR BID GSWA-006-22 HOUSEHOLD HAZARDOUS WASTE TRANSPORT & DISPOSAL

### Questions and Concerns received from South Pacific Environmental LLC Guam on August 3, 2022

1. When you say the bidder must provide the necessary equipment to sort and load collected waste, what does that mean?

**Response:** Bidder should have the ability to load the HHW and sort/separate the packaged HHW onto its vehicle(s) if necessary/applicable. Bidder must have its own equipment if it is needed.

2. Will the wastes be drummed and labeled ready for pickup and transportation and disposal?

**Response:** Yes.

3. What will the successful bidder be sorting? What kind of equipment is necessary for the sorting and loading?

**Response:** All HHW will be packaged by GSWA. Bidder may need to sort or separate the packaged HHW/drums in its vehicle(s) if applicable. Bidder should determine what equipment is necessary when picking up the packaged HHW.

4. With the used oil, will GSWA be testing the oil and drumming the oil in preparation for shipping?

**Response:** Yes.

5. Do you expect the successful bidder to package the HHW or will it already be in drums, labeled and ready for transport? Will GSWA be bulking the paint waste into drums or do you expect the successful bidder to provide that service, to include providing the empty drums?

**Response:** GSWA will package and label the HHW to include paint. Bidder will only handle the transport and disposal/recycling of the HHW. GSWA does not require bidder to provide empty drums.
