INVITATION FOR BID GSWA-01-21 95 GALLON ROLL OFF CARTS

ADDENDUM NO. 2

QUESTIONS:

1. The bid also does not ask for a specific quantity of carts. It only ask for a price per cart if ordered in a 40' or 45' container. This bid requires a 15% bid bond. What formula do we use to calculate the bid bond if the bid only requests the price per individual cart? Is it 15% for the price of 1 cart?

Response: Bid bond amount should be in the amount equal to fifteen (15) percent of contract price which would be the total cost for a full container load.

2. The bid also request for a set price for 3 year and a maximum escalation per year for the 2 option years. The price for shipping and cost for the raw plastic has fluctuated by as much as 40% over the last 5 years. It might not be possible to get a set price for the cart fixed for 3 year.

Response: Requirement will remain status quo.

3. The industry size standard for residential carts is 95 or 96 gallon. Will a 95 gallon cart be acceptable since it falls within the industry standard?

Response: Capacity of cart is (minimum) 95 U.S. gallons, excluding domed lid. 96 gallon cart will also be acceptable.

*All others remain the same.
